Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I'm sure somebody was sitting around one day and said, (Do you realize that there are 1.6 million cell phones out there) Well enough said there, lets raise the rates so we oursevles do not have to budget money. Sure it's just a dollar but there are other institutes out there like yours taking the dollar. It does add up and since you probabley have a company phone why would you care anyway. Just another good example of bad leadership and goverment.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Wes
